High performance, focusable headlight with power white light solid state lamp

Wireless, light weight, comfortable headlight with modern Li-Ion rechargeable battery pack at the headband. Especially suitable for mobile use. Our wireless LED-headlight provides a high light emission, long lasting operation as well as a simple and comfortable handling.

The intensive and homogeneous illumination is provided by a modern high power LED. The special high efficiency lenses focus the light to a variable concentrated spot. LED-headlights offer the best possible price/performance relation because of the typical long life and power efficiency by solid-state lamps and the modern Lithium-Ion technology. Because of the low total weight and the ergonomic leather bolstered headband it is a pleasure to wear this headlight also for long times. To turn the headlight on or off you can switch at the battery pack. The ball joints make it possible to adjust the light exactly into any requested position for a restriction free optimal view. The charger is available with connector type EU, UK and USA.

Technical data LiOn-Headlamp

Headband black, with headband
Charger Li-Ion incl. plug EU or UK or US Bolster (Standard EU)
Total weight: **350 g** (with Power pack on headband)
Classification: Class I (according to annex IX of directive 93/42/EEC)
Classification: 1 M according EN 60825-1
Power supply: Li-Ion Power pack, 700 mA

Charging period: approx. 4 h at fully discharge
Operation time: approx. 3.5 h

Working distance: 20...60 cm
Light outlet: focusable
LED: Power-LED, white
Colour temperature: approx. 6.000 Kelvin
Power: 3 Watt

Article: 00-21380-02

* working distance - spot-Ø: 20 cm - 11-40 mm / 30 cm - 13-63 mm / 60 cm - 25-130 mm
