All RFQ-Optics have got the best quality and design that the surgeon needs during the surgery. The excellent disposition of the fiberglass will always guarantee the best bright and clear sight (please use HTT-BlueLine-Fiber optic cables). Through the manufacturing using only high-grade steel our endoscopes reach a very long life and guarantee the highest hygienic Standards. All our endoscopes are 100% compatible with Storz and have following connections: Storz / Wolf / ACMI.

If you need more information, please contact us via www.rfq.de or by phone 07461/961713 (RFQ-Faseroptik)
